

It was fabulous to once again powhiri (below) our new team of German volunteers to the school on Monday. Hanna and Michael arrived on Sunday looking relatively fresh after their 30 hours of travel to New Zealand. They are already settling quickly into their roles at school and we are again very privileged to have a motivated and eager pairing. We know their year will go quickly and we hope they are able to make the most of their time with us. The powhiri was also an opportunity to formally welcome recent staff, students and whanau to our school. It was wonderful to have a number of parents come along to support their students and be an active part of the welcome.

As we head into the middle of Term Three it tends to indicate the culmination of a lot of our Winter Sports as well as a significant time when a large number of our students gain recognition in the individual disciplines and areas of interests outside of school. As I walked around the students this morning it was amazing to hear about the range of activities our students are involved in and the high level a number of our students are achieving at. What even more surprised me was the range of activities many are involved in and the level of achievement we are seeing within the school.
