Principal's Voice

Dear Parents/Carers/Community Members

It has been another very busy term. We have had a lot of activities for our tamariki to be involved in, including 'Kids in the Kitchen' and our community 'Matariki' celebration hangi and concert in the Memorial Hall.

It has been a frustrating time for teachers and principals in negotiating work claims with the Ministry of Education and government. Teachers have accepted the latest claim offer but the principal claim has been rejected by principals. We are yet to know what this will entail. At present many of our teachers in management roles will be getting a higher wage than our principals in smaller schools. We have our Support Staff about to now go into their pay negotiations - we all wish them well, as they are also presently greatly undervalued by government.

Mid-Year Review

As it is mid way through the year it is timely to reflect on our targets, goals and the strategic direction of the school. When looking at the Ministry of Education plan of 2016-2020 I believe we have embraced all of the recommendations. We have certainly championed 21st century practice in teaching and learning. The most recent innovation for us is the introduction of Play Based Learning. One of the results of this is that our young children are happy, engaged and wanting to learn. They look forward to coming to school. We are presently doing work in transitioning our early childhood tamariki into the school and school into college.

Local Curriculum

At the end of last year we held a community interactive hui to set the direction for the school. We had a great turn out. Following on from this we are proposing to hold a 'local curriculum' review later in the year. We already have a number of proposed initiatives in developing more environmental studies and authentic contexts for learning. We will again be asking for your assistance in developing a unique Shannon School curriculum. Look out for our community posters later this year.

Horowhenua House of Science

We have the privilege of hosting this service at our school. The House of Science puts together science kits that are provided for weekly use across all Horowhenua Schools. We have already used several of these kits and our kids have been totally engaged in the hands-on activities provided.

Assistance at School

We have a number of community members, who don't have children or mokopuna at the school, presently volunteering with activities in the school e.g. breakfast, gardens and reading with individual children. A big thank you to you all as we can see the positive influence this provides for our children. As the African proverb states "It takes a village to raise a child". A school is not the only place where education and learning occurs. If you have any particular skills you think would be useful for learning, or would just like to engage with children in their learning, please let us know.

Ngā mihi Murray Powell

Board of Trustees

Tēnā koutou katoa

On behalf of the School Board of Trustees I wish to give many thanks to our departing members who have served Shannon School with their generous time and skills to do the best by our children and staff. Brendan Mason, Samantha Hazelwood we salute you.

Secondly, I wish to congratulate and welcome our new members to the Board, Wylie Te Peeti, Leigh Harrington, Priscilla Wade, Verona Sayles, Virginia Kohika (Marae Rep) and Sarah Sheehan (Staff Rep). Thank you also to our parents who put themselves forward for the Board, Matt Pilkington, Lani Ketu, Jodie Richardson and Tamara Bal.

"Whaia te iti kahurangi ki te tuoho koe me he maunga teitei" Seek the treasure that you value most dearly, if you bow your head, let it be to a lofty mountain. This whakataukī is about perseverance and endurance. Refusing to let obstacles get in your way while striving to reach your goals. May all our children be equipped to reach their full potential.

Term 2 Learning in the Harakeke Hub

Baking for 'Kids in the Kitchen' day. Creating 'layers of the earth' as part of our science kit.

Our Matariki artwork based on the story 'Little Kiwi's Matariki'.

Building strong friendships with Shannon Kindy tamariki

OFFICE NOTICES

Welcome to our Term 2 Community Newsletter.
There has been a number of highlights. Our Kids in the Kitchen week and our Matariki Celebration would be at the top of the list.

Our tamariki worked with Marina Alletson, a nutrition advisor for Mid Central Health and the Heart Foundation, and Emma Williams, who is our health promoting schools advisor. The pair taught the children about healthy eating and making healthy items for their school lunches. We had a big shared lunch with everything the children had prepared. Some kai was donated, we also harvested food from our school garden. Every child received a free lunch box and drink bottle. We have really noticed that our children are now making healthier lunch box selections. There has also been a reduction in packet food. This is great for our planet. KAI PAI KIDS!!

Matariki was amazing! There were hours of hard mahi for this event by our tamariki, staff and community volunteers, but it was well worth it. It was great to come together to celebrate Matariki. Please accept this as a personal THANK YOU if you were involved in this event.

Our tamariki have had fun learning about science with the new House Of Science school kits. The rockets were the best! We are lucky to have this organisation in our area to access such a great learning resource.

Our children will be working on beautifying our school with individually decorated rocks in the coming months. A big THANKS to BUNNINGS in Palmerston North for donating some paint and brush supplies and Ben Frean from RESENE PAINTS in Wellington, for this project. YOU ROCK!!

We are always overwhelmed with the generosity of strangers. Recently we were contacted by Julie who

lives in Kapiti. She had heard about our wonderful school garden from Kath Irvine. She offered to donate another Hungry Bin worm farm. We already have one system and jumped at the chance to be able to compost more waste in this way. We are now fully composting all possible waste into our worm farm or into the garden. This has seen a huge reduction in our litter going to the landfill. We also recycle paper and cardboard. We are now an official drop off for Nespresso Capsules and Nescafe Dolce Capsules. Feel free to drop them into our kura if you use these at home. We still send off Oral Care Waste under the TerraCycle Programme. We are trying to do a bit for the environment. Start collecting your old toothbrushes, toothpaste, floss containers and the packaging and drop them into the school office.

If you have not visited our school in a while or are new to Shannon, we love visitors. You are more than welcome to come into our school and see the wonderful learning our children are experiencing. Recently we have met a number of new members in our community and had some ex pupils visit. WELCOME/MANAAKITIA. It has been great to have such positive feedback about what we are offering our children. And the school is looking fabulous! Thanks Beau and Carol B.

This term our school entered a competition to win netball gear from Fly Palmy (Palmerston North Airport). We were lucky enough to be chosen as the winners! We received \$300 worth of netball gear for our teams to use. Bernie, the mascot from Fly Palmy came to deliver the gear and we had so much fun hanging out with him and he was a great dancer! Thanks so much Fly Palmy, we really appreciate the new gear!

SPEAK UP, STAND TOGETHER, STOP BULLYING #pinkshirtday

Thanks so much to Jacqui for organising Pink Shirt Day this term. We all wore pink to show our support and stand up against bullying. It is an important message that is close to our hearts at Shannon School. Thank you to everyone who got involved this year.
