Health & Safety at Waikite Valley School

As some of you are aware, there was an incident involving the Police during the Summer Break, whereby the Armed Offenders squad was called out to our community and the Kindy had to go into 'Lockdown'. This event was well handled by all groups involved, allowing the Police to complete their investigation and the Kindy and community to resume their normal activities. Following that occurrence, I have carried out a thorough Risk Analysis and am satisfied that the school is a safe environment for our students. This is a task and responsibility I do not take lightly.

As part of our health and safety plan, we will conduct a school lockdown drill each term this year (as was done in 2019) to ensure that if our school has the occasion to go into lockdown the students will know what to do. The document that we currently follow is included in this newsletter so you are also aware of this procedure. Please feel free to talk it through with your children. There are a number of events that would cause a lockdown to take place, such as chemical spills, gas leaks, intruder alert. A crucial part of our plan is that we have accurate information for contacting parents in case of emergency. Before the end of this term we will check with each of you to ensure your contact information is up-to-date.

I appreciate your support and if you have any concerns regarding the safety of your child/ren at school, please get in touch. School should always be a safe and enjoyable environment.

LOCKDOWN PLAN AND PROCEDURES

Preamble: A lock-down would be used anytime students need to be contained and protected inside school buildings. Events of this nature could include; chemical spill, gas leak, fugitive on the School Grounds, dog loose on school grounds or an intruder alert.

The Waikite Valley School Board of Trustees believes that the safety of all students and staff in our school is paramount and takes every precaution to ensure the safety of all. The Board believes that Schools need to be secured in an appropriate manner when dealing with a perceived or actual threat to the school community.

Rationale

The Waikite Valley School Board is committed to providing a safe and caring environment for staff and students. Therefore the school will develop and adhere to a plan that responds to a perceived or actual threat to their school community.

Steps:

- 1) School is made aware of an incident and advised to implement 'lockdown procedures'. The person witnessing the event must try to notify the Principal or School Office to raise the alarm.
- 2) Message to classroom teachers from Office via facebook messenger and text.
- 3) Alarm activated. Indicated by 10 rings of the bell.
- 4) The Principal or the Office Manager will contact the Police (via 111).
- 5) The Principal or the Office Manager will send a message to school families via a group text from the school phone and a post on the school facebook website.

If students are in class:

- 1) Teachers lock all doors and if possible barricade them.
- 2) Turn out lights and cover windows, if possible, by drawing curtains, and shutting blinds. It is also recommended to turn off computer screens.
- 3) Keep students out of sight. Position all students in the part of the room, which is least visible from windows and doors.
- 4) Students need to be silent.
- 5) Have students lay on floors, against walls or under furniture.
- 6) Do not let students outside.
- 7) Staff are to take a roll of those students in their secure areas for later accounting. Message this information to the Office Manager.
- 8) Stay in the LOCKDOWN position until the "all clear" is given by the Principal or the Police.

In the event children are outside - such as during playtime or lunch break

- 1) Students and staff go to the library upon hearing the 10 bell signal.
- 2) In conjunction with the local Police and the Principal, arrangements will be made for parents to collect students from a designated safe area.
- 3) It is important that children are kept quiet and calm.
- 4) Teachers and adults are encouraged to take a register of children in their care and message or email this information to the Office Manager

Preparedness:

The Principal will ensure staff obtains appropriate training to fulfil their roles under this Plan (e.g. first aid training). In particular:

- 1) Staff are to be educated on the requirements of this Plan and where it is located.
- 2) Drills are to be organised for regularly testing this Plan.
- 3) The School will maintain effective and up to date information for contacting parents in emergencies.
- 4) The School will maintain appropriate stocks of food and other emergency equipment. Arrangements will be made for regular checking/ testing of that equipment.
